PROFESSIONAL SUMMARY

Information Technology graduate and Magna Cum Laude with hands-on experience in software and web application development. Skilled in developing applications using databases, APIs, and modern programming technologies to build practical solutions. Strong foundation in problem-solving, system development, and software engineering, with a willingness to continuously learn and adapt to new technologies.

EDUCATION

Bachelor of Science in Information Technology

2022 - 2026

City of Malabon University

- Academic Distiction: **Magna Cum Laude**

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, PHP, SQL, HTML5, CSS3
- **Frontend:** React, Vite, Responsive Web Design, Tailwind CSS
- **Backend:** Node.js, Express.js, Django
- **Databases:** SQLite, MySQL, PostgreSQL
- **Libraries/Tools:** Pandas, Scikit-learn, Leaflet.js, Git, GitHub
- **Development Concepts:** REST API Development, CRUD Operations, Role-Based Access Control (RBAC), Responsive Web Design, Client-Side Data Persistence, Component-Based Architecture, Form Validation, State Management, API Integration

RELEVANT COURSEWORK

- Web Development
- Database Management Systems
- Object-Oriented Programming
- Systems Analysis and Design
- Data Structures and Algorithms
- Information Management
- Computer Networks

PROFESSIONAL EXPERIENCE

IT Intern / Website Developer

Jan 2026 - Apr 2026

- Developed and maintained website content using DecoNetwork, updating product information, images, pages, and other website elements.
- Performed website content updates and maintenance to ensure accurate, organized, and properly presented information.
- Created digital and promotional materials using Canva and Adobe Photoshop to support website and marketing requirements.
- Edited social media video content using CapCut and Filmora, incorporating graphics, text, transitions, and other visual elements.

TECHNICAL PROJECTS

AI Dengue Hotspot Predictor

City of Malabon University | August 2025 – October 2025

- Developed a Django-based predictive analytics application that analyzes historical dengue cases and weather data to forecast dengue risk across barangays in Malabon City.
- Implemented a Random Forest machine learning model and interactive map visualization to present predicted dengue hotspots.
- Integrated Pandas, SQLite, Leaflet.js, and the Open-Meteo API for data processing, storage, visualization, and weather data.

Mini ERP

Personal Project | 2026

- Developed a React-based Enterprise Resource Planning system for managing products, purchasing, sales, inventory, reports, and users.
- Implemented CRUD operations, multi-product transactions, inventory tracking, role-based access control, and client-side data persistence using LocalStorage.
- Deployed the application using Vercel and managed the project using Git and GitHub.

University Registrar Queueing System

Personal Project | 2026

- Developed a full-stack digital queueing system for university registrar services using React, Node.js, and Express.js.
- Implemented REST API communication, department-based queue management, employee authentication, and queue display functionality.
- Deployed the application using Vercel and managed source code using Git and GitHub.

University Learning Management System

City of Malabon University | 2024–2025

- Developed a browser-based learning management system supporting administrators, faculty, and students through role-based dashboards.
- Implemented academic activities, assignment submissions, grades, attendance, schedules, and announcements using JavaScript and LocalStorage.
- Designed a responsive interface using HTML5 and CSS3 with client-side data persistence.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

National Certificate II (NC II) – Computer Systems Servicing

- Technical Education and Skills Development Authority (TESDA) | Apr 2026
- Training Center: Viva Excel Institute Inc

International Research Conference on Social Sciences, Education, and Tech Innovation

- International Organization of Educators and Researchers Inc. | Apr 2026
